

BRB 1298

INCI NAME: Amodimethicone (and) Trideceth-7 (and)
Trideceth-5 (and) Propylene Glycol (and) Trideceth-12

Issue date: July, 2015

Description

BRB 1298 is a 30% non-ionic microemulsion of an amine-functional silicone polymer.

Application

BRB 1298 is an excellent conditioning additive for hair care products such as 2-in-1 shampoos, conditioners and styling products.

Features

- Easy to formulate into water based conditioning products
- Ideal for clear formulations

Benefits

- Improves wet and dry combing
- Improves hair volume and shine
- Reduces hair flyaway

Typical Data

Parameter	Unit	Value
Appearance		Clear to slightly hazy
Solid content	%w/w	30
Viscosity at 25°C	cSt	30
Emulsifier type		Non-ionic
pH		4.5

BRB 1298 is protected with the addition of a preservative-free blend of Caprylyl glycol and Phenethyl alcohol that offers synergetic broad spectrum antimicrobial protection.

How to Use

To optimize the dispersion of *BRB 1298* into the final formulation, it is recommended to add it at the end of the procedure at a temperature below 40°C. Recommended use levels is dependent of the final formulation and can go from 2 to 10%.

A Product Safety Data Sheet should be obtained from your BRB office prior to use.

ATTENTION: Before handling, read product information, Product Safety Data Sheets and container labels for safe use, and any physical and/or health hazard information.
