

Blanova® DS 911

Azelis Personal Care

Zeolite

Description

Blanova DS 911 has a high capacity molecular sieve with both hydrophilic and hydrophobic properties that makes it very useful in eliminating a large range of molecules.

It is very effective in removing small amines, esters, ketones as well as ammonia and other odors.

It is used in a variety of personal care products to remove unwanted odors or provide a pleasant warming sensation during use.

Characteristics
